

Small and micro parts

Development

Use of plastic-related properties for

- development of new products
- substitution of other materials

Production

- Plastic parts with high accuracy
- Solutions relating to customers' requirements
- Processing of thermoplastic standard polymers, engineering and high temperature polymers
- Optimized process with plastizing unit diameter of 14 mm
- Reduction of shot weight by optimization of gate

CKT-Ökoplast GmbH

Industrieweg 10, 09648 Mittweida
